

Terminal 117 Cleanup

Port of Seattle and City of Seattle

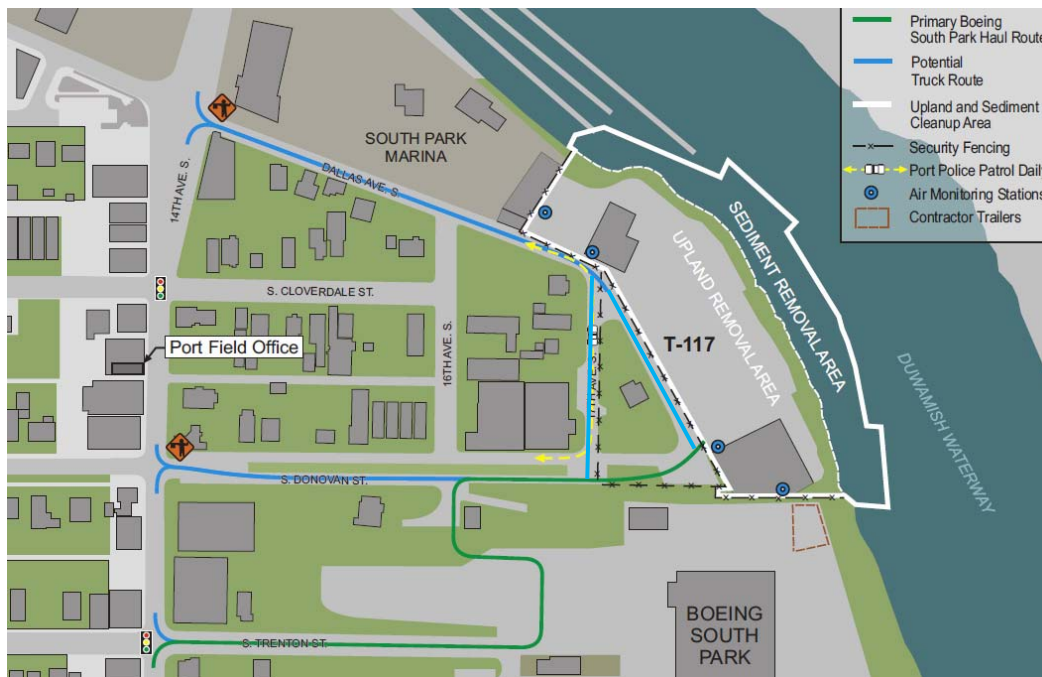

MINOR HAUL ROUTE CHANGE

2/26/14

Upland excavation is almost complete! All contaminated upland soil excavation will be completed at Terminal 117 by the beginning of March. The rest of the work will be to fill in the excavated areas with clean fill and rebuilding the riverbank with rock and riprap, and will be done in April.

Throughout the project, trucks have entered the T-117 construction site via the Primary Boeing South Park Haul Route (see green line on the map below). We are very thankful to Boeing for letting us use their parking lot as part of the haul route! **Now, due to a construction project on the Boeing South Park campus, trucks will move in and out of the site via the two Potential Truck Routes (see blue lines) shown below.**

These alternative haul routes will move truck traffic primarily through Upper South Donovan Street, using Dallas Avenue South as an alternative route. Truck traffic will be spaced throughout the day to reduce impacts to the neighborhood.

If you have any questions or concerns about the haul route, or anything else regarding T-117 construction, please contact the T-117 Hotline: T117Hotline@portseattle.org or 1-877-999-T117 (8117).
